*C.E.O./Director of Education (Interim): Tony Stack*

---

December 8, 2017

Dear Parents and Guardians:

I would like to provide you with a further update on the status of Bishop Feild Elementary.

The Department of Transportation and Works has hired Nova Consulting to undertake a structural assessment of the facility.

It is anticipated that the assessment will be completed at the end of February. Due to the extent of the assessment, which includes removing ceilings throughout the school to ensure the structure can be thoroughly assessed, and the necessary remediation work that would follow, it is unlikely that students, teachers and staff will return to the school during this school year.

The safety of the school community remains the priority of both the District and the provincial government.

We are committed to providing the school community updated information as this process continues. I would once again like to thank the school staff and the entire school community for their understanding and efforts during this time.

Sincerely,

Lucy Warren  
Associate Director of Education – Programs and Operations (Acting)
