

October 2, 2026

Dear Prince of Wales Collegiate School System families,

The Provincial Government is making adjustments to the Prince of Wales Collegiate School System in preparation for the anticipated opening of the new school in Kenmount Terrace.

Construction of the new Kenmount Terrace school is scheduled to be completed for the 2027-28 school year. The 2027-28 opening of the new school will result in a reconfiguration of the school feeder system for the area, including all schools currently within the system:

- Larkhall Academy.
- St. Andrew's Elementary.
- Leary's Brook Junior High.
- Prince of Wales Collegiate.

To account for the demographic changes in the area, the current Larkhall Academy catchment will be divided into two as follows:

1. A new catchment that has residential addresses in the Kenmount Terrace subdivision only.
2. The remaining non-Kenmount Terrace residential addresses will be added to the St. Andrew's catchment.

This catchment reconfiguration provides the opportunity for the following adjustments to be implemented in the Prince of Wales Collegiate School System for the 2027-28 school year, resulting in efficient and effective use of existing school infrastructure:

- Kenmount Terrace will be opened as a K-8 school for families who reside in the new catchment 1 above (i.e., residential addresses in Kenmount Terrace only).
 - This school will also have an Early French Immersion program.
- St. Andrew's Elementary will be reconfigured to a K-3 school.
 - Its catchment will consist of its current catchment plus the new catchment (2) noted above (i.e., the non-Kenmount Terrace residential addresses of the current Larkhall catchment).
- Leary's Brook will become a Grade 4-8 school; feeding from St. Andrew's.
- Prince of Wales Collegiate will remain a Grade 9 to 12 school, feeding from both the new Kenmount Terrace school and Leary's Brook.
- Larkhall Academy will no longer serve as an elementary school in this feeder system, as NLSchools takes time to evaluate its future use within the public education system.

The following chart summarizes the changes in grade configuration and catchment for the system. This plan takes into account optimal programming for students and efficient use of school infrastructure, providing space for growth in all schools.

Configuration	Current	Planned Adjustments
Kenmount Terrace	N/A	K-8
Larkhall	K-4	Evaluating future use
Leary's Brook	5-8	4-8
St. Andrew's	K-4	K-3
PWC	9-12	9-12
Catchment	Kenmount Terrace	Only the Kenmount Terrace address portion of the current Larkhall/Leary's Brook catchment.
	St. Andrew's	All K–8 students currently within the PWC system with the exception of those residing in the Kenmount Terrace addresses/subdivision.
	Leary's Brook	
	Larkhall Academy	Evaluate future use in K-12 Education system
	PWC	Current PWC catchment w/removal of students residing in the new PCSPH catchment. (no change)

The focus moving forward will be to operationalize the new school system plan and prepare all schools for the changes to come for the start of the 2027-28 school year.

If you have any questions, please do not hesitate to contact Mr. Sheldon Marsh (Director of Schools for [Family of Schools 7](#)) via email at sheldonmarsh@nlschools.ca.

With appreciation,

Terry Hall
